# Billing & Premium FAQ

Answers to common questions about premiums, payments, claims, and renewals.

## Understanding Your Premium

### When is my premium due?

Your premium due date is the policy start date each year (or each instalment date if you pay quarterly or monthly). You can find your exact date under My Policy > Premium in the Evernorth app. An SMS and email reminder are sent 15 days and 3 days before the due date.

### What is included in my premium?

Your premium includes your base plan charge, any optional add-ons (such as critical illness or personal accident cover), loading for age or declared medical conditions, and applicable taxes. A full itemised breakdown is available in the Evernorth app under Premium Details.

### Why is my renewal premium higher than last year?

This is usually due to one of three things: you moved into a higher age band, you added a rider or increased your sum insured, or you lost part of your no-claim bonus after a claim. Check Premium Details in the app for a line-by-line comparison, or ask an Evernorth support agent to walk through it with you.

### How do I check my coverage balance and claims status?

Open the Evernorth app and go to My Policy > Coverage. Your remaining sum insured, no-claim bonus, and claim status update within a few hours of any change. You can also call customer support with your policy number.

## Payment Methods

### What payment methods are accepted?

Evernorth accepts UPI, debit and credit cards, net banking, and cash or cheque at authorised Evernorth service centres. Premiums can also be set up for automatic payment through UPI Autopay, e-mandate, or card auto-debit.

### Can I set up automatic premium payment?

Yes. Go to My Policy > Autopay in the Evernorth app and link a UPI ID, bank account, or card. Once enabled, your premium is paid automatically on each due date and you will receive a confirmation SMS after each payment.

### Can I pay my premium in instalments?

Yes. Quarterly and monthly instalments are available on all Individual plans. Quarterly payments carry no extra charge. Monthly payments carry no extra charge with Autopay, and a 2% instalment loading applies without Autopay.

### Is there a fee for paying my premium?

No, Evernorth does not charge any convenience fee for payments made through the app, website, or UPI. Cash payments at third-party partner outlets may carry a small handling fee set by that outlet, not by Evernorth.

## Late Payments & Policy Lapse

### What happens if I miss my premium due date?

A grace period of 30 days is provided for annual and quarterly premiums, and 15 days for monthly premiums. Your policy remains in force during the grace period. Claims arising during this period are payable, subject to the pending premium being deducted from the claim amount.

### Is there a late payment fee?

No late fee is charged if you pay within the grace period. If payment is received after the grace period, the policy lapses and no claims are payable for the lapse period.

### My policy has lapsed. How do I restore it?

Request reinstatement from My Policy > Reinstate in the Evernorth app, or visit a service centre. Policies lapsed for up to 90 days can usually be reinstated after payment of the overdue premium and a declaration of good health. Beyond 90 days, a fresh medical review may be required, and waiting periods may restart. Reinstatement is typically confirmed within 24 hours of successful payment.

## Claims & Reimbursements

### How does cashless treatment work?

Show your Evernorth health card at any network hospital's insurance desk. The hospital sends a pre-authorisation request, and approval is typically given within 2 hours for planned admissions. For emergencies, you can get treated first and pre-authorisation can follow within 24 hours.

### How do I claim reimbursement for treatment at a non-network hospital?

Pay the hospital directly and upload your documents (discharge summary, bills, receipts, and investigation reports) through the Evernorth app within 30 days of discharge. Approved claims are settled within 15 days of receiving complete documents.

### My claim was rejected or partially paid. What should I do?

Open the Evernorth app, go to Claims > Claim Details, and review the reason code. Use the 'Raise a Dispute' option to submit additional documents or request a review. Disputes are typically resolved within 10 business days.

## Refunds & Cancellations

### Can I cancel my policy and get a refund?

Yes. Within the 15-day free-look period from receiving your policy, you can cancel and receive a full refund after deducting any medical examination costs and stamp duty. After the free-look period, a pro-rata refund is provided based on the unexpired policy term, provided no claim has been made.

### I was charged for something I don't recognise. What should I do?

Open the Evernorth app, go to Premium Details, and locate the charge in question. Use the 'Raise a Dispute' option beside the charge or ask a support agent to escalate it. Disputes are typically resolved within 5 business days.

### How long do refunds take to process?

Approved refunds are credited back to the original payment method within 5 to 7 business days. Refunds to your Evernorth Wellness Wallet are applied instantly once approved.

# Changing or Renewing Plans

### Can I upgrade my plan in the middle of the policy year?

Mid-term upgrades are available on request and are subject to medical underwriting. An additional pro-rata premium applies for the remaining term. Most customers upgrade at renewal, when no underwriting is needed for sum insured increases of up to one tier.

### Can I switch from an Individual plan to a Family Floater?

Yes. Start the request from My Policy > Plan > Convert to Family Floater in the Evernorth app, or visit a service centre with valid ID proof for each member. Added members may be subject to a short underwriting review of up to 48 hours.

### Can I port my policy from another insurer to Evernorth?

Yes. Submit your portability request at least 30 days before your current policy renewal. Waiting periods already served are credited, up to the sum insured of your existing policy.
